Re: YRP Jackson's Point Marine Unit – NOTICE OF CONSTRUCTION STATUS

As of July 22nd, 2019, please be advised that further investigations and remedial measures are underway due to newly discovered site conditions. Dredging work will be anticipated on the week of July 29th, 2019 to allow construction to resume once all risks have been properly mitigated. Additional boreholes will be advanced for a geotechnical investigation and conceptual design for the underfloor fill.

Please be advised that all construction activities are subject to inclement weather or unforeseen site conditions. Streets and intersections adjacent to the construction site remain open to traffic.
